

Connector Strips

Rated Voltage: 380 VAC

Material: PE

Temperature: 85°C

Technical Table

Code	Rated Current (A)	Wire Size (mm)
CS3MBK	3	4
CS5BK	5	6
CS15BK	15	12
CS30BK	30	16
CS60BK	60	25

All dimensions in mm. Subject to technical changes.

Fospro

Fospro, the 'Professionals' choice of de-watering fluid, is now available to you. Fospro is used by the Ministry of Defence and Multinational Companies where performance counts.

If your car will not start due to our damp climate then FOSPRO will 'lift' the water away, allowing your electrics to perform. It is a penetrating fluid useful for dismantling rusted nuts and bolts. Ideal for lubricating door hinges, key locks or household items including lawnmowers, bicycles and skateboards etc. It restores electrical conductivity. Ideal for all types of terminals on the car, washing machines, or other electrical appliances.

The aerosol can is also equipped with an extension tube to allow access to those difficult round the corner areas and of course the propellant is a friendly CO₂ type. This not only makes it safer but also means that the can is filled with a greater proportion of effective concentrate, unlike most Propane/Butane propellant alternatives.

Fospro
